

2015

District 11 Health Profile

Miami-Dade County, FL
Monroe County, FL

Mission: To be the source of unbiased health and quality of life data and analysis; the preferred partner for quality program planning, management, evaluation, and community services; the facilitator of collaboration and partnerships in Miami-Dade and Monroe counties; and the trusted champion for ethical and targeted healthcare policy at the local, state, and national levels.

Disclaimer

All data elements included in this report derive from the most recent data available for publication (2014, 2015, and in one instance, 2013). The inclusion of information prior to 2015 is the result of pertinent data being released and published according to different reporting cycles, which usually precedes the current reporting year of this report; such as the 2014 quarterly hospital utilization report published by the Agency for Health Care Administration (2015 hospital utilization report will be available for publication after May 2016).

Five data components have been highlighted in this report as it pertains to Miami-Dade and Monroe residents, in comparison to residents in the State of Florida. Please note that the full report is available for purchase upon request, and include the following additional components:

Adult Behavioral Risk Factors

Communicable Diseases

Lack of Health Insurance Coverage

Prevention Quality Indicators (Adult and Pediatric)

Emergency Department Utilization

Hospital Inventory and Utilization

Nursing Home Inventory and Utilization

In addition to the information depicted in this report, zip code and GIS mapping analysis for Miami-Dade and Monroe counties could also be conducted for: communicable diseases, demographics, Emergency Department utilization, hospital utilization, household income, leading causes of death, maternal and infant health indicators, Prevention Quality Indicators (PQIs), and Pediatric Quality Indicators (PDIs).

For more information regarding this additional analysis or to purchase the full report, please contact:

Ricardo Jaramillo, Senior Community Research Data Analyst

rjaramillo@healthcouncil.org

The HCSF offers a variety of contracted services that can be used to enhance your projects and programs. Our experienced and knowledgeable staff have a solid understanding of the complex issues facing our community. Services include:

Objective & Reliable Community Health Data

- County Health Profiles (Miami-Dade & Monroe)
- Qualitative & Quantitative Health Data Gathering & Analysis
- Customized Health Data Reports
- Healthcare Utilization Subscription Reports
- Community Health Needs Assessment (CHNA)
- Hospital Needs Assessment (990 Requirement)
- Community Health Report Card
- Customized neighborhood level HEAT Maps

Strategic and Community Based Planning

- Development of Holistic Action and Strategic Plans
- Health in all policies
- Identification and implementation of Evidence-Based Practices
- Establishment of Realistic Benchmarks

Effective Evaluation

- Community Surveys
- Focus Group Facilitation
- Program/Project Evaluation
- Community Health Improvement Plans
- Health Impact Assessments

Chronic Lower Respiratory Disease	861	27.0	Unintentional Injuries	35	43.9	Cerebrovascular Diseases	9,605	33.8
Unintentional Injuries	716	25.1	Chronic Lower Respiratory Disease	28	24.6	Unintentional Injury	9,128	41.1
All Causes, Total Deaths	18,846	601.3	All Causes, Total Deaths	691	681.1	All Causes, Total Deaths	185,038	683.5

*Rate per 100,000

5. How often is our resident population admitted to hospitals?^{1, 11, 12}

January 1, 2014 – December 31, 2014	Miami-Dade County	Monroe County	Florida
Total Resident Discharges	347,149	8,959	2,634,872**
Rate per 100,000 Population	13,140.5	11,938.3	13,406.0
Total Licensed Beds (All Unit Types excluding Skilled Nursing)* (October-December 2014)	9,211	202	61,556
Total Licensed Acute Care Beds (October-December, 2014)	7,504	157	50,946
Acute Care Beds Occupancy Rate (January-December 2014)	39.3%	32.5%	54.4%

*There are 37 Skilled Nursing Beds in District 11 (22 in Miami-Dade County and 15 in Monroe County)

**Please note that prior to the 2013 District 11 Health Profile, a different methodology had been employed to observe number of hospital discharges in the State of Florida; which consisted in the exclusion of "unknown" county discharges for the reporting year. Total resident discharges for 2014 included in this report, excludes discharges from "unknown" counties in the State of Florida. The table below represents discharges in the State of Florida observed in 2013 and 2014 with the inclusion and exclusion of "unknown" counties; which will assist the reader to compare data utilizing both methodologies.

	Total Resident Discharges	
	Inclusion of Unknown Counties	Exclusion of Unknown Counties
Florida		
2012	2,670,508	2,571,844
2013	2,673,430	2,571,226

5. How often is our resident population admitted to hospitals? (Continued)¹¹

Miami-Dade County (2014)	Number of Discharges	Percent
